Workshop

Challenges that local authorities and schools are facing with accountability structures and measures

Working paper

Looking beyond the numbers: stakeholders and multiple school accountability

Hogeschool van Amsterdam

What's the problem?

Decentralisation in education:

holding central governments accountable for education when only playing 'enabling' role?

Accountability deficit

\# 1   Legitimacy problem

\# 2   Narrowing purposes of schooling

Purposes of school accountability

Legitimation

Accounting for the quality

Improving of the quality

Vertical

Regulatory School Accountability

School Performance Accountability

Professional School Accountability

Horizontal

Multiple School Accountability

Hogeschool van Amsterdam

From singular to multiple accountability

Involving students, parents, community, other stakeholders

1 Is the school doing the right things?

2 Is the school doing things well?

3 How improvement quality of services?

How to make it work?

Identifying stakeholders (parents!)

Building stakeholders capacity

Building schools' capacity

Can Multiple School Accountability complement

in order to build a system that takes into account the nuanced nature and purposes of education?
